Instruction Manual

Model 1275 Computer Monitor Generator
SAFETY GUIDELINES

WARNING

An electrical current of over 10 milliamps passing through the heart will stop most human hearts. Voltage of as low as 35 Volts dc or ac rms should be considered hazardous since it can produce lethal current under certain conditions. Be sure to observe the following safety precautions:

1. There are no high voltages in the color pattern generator, but the equipment under test usually contains hazardous high voltage. Always follow the safety recommendations of the manufacturer of your equipment.

2. Some equipment may be wired as a "hot chassis" type; equipment using two-wire power plugs are always suspect and it may even include those with polarized plugs. Never touch chassis of "hot chassis" type equipment to avoid the possibility of a serious, possibly fatal electrical shock.

3. Don't expose yourself needlessly to high voltage; only remove housings and covers when necessary.

4. Familiarize yourself with the equipment being tested and the location of its high voltage points. However be aware that high voltage may appear at unexpected points in defective equipment.

5. Never work alone. Someone should be nearby to render aid if needed. Training in CPR(Cardio-pulmonary resuscitation) is highly recommended.

Service Information

Contact B&K Precision to receive a repair Return Authorization tracking number. This number must be clearly written on the exterior of the shipping carton and will assist us with the processing of your return. Return all merchandise to B&K Precision Corp. with pre-paid shipping. The flat-rate repair charge includes return shipping to locations in North America. For overnight shipments and non-North America shipping fees contact B&K Precision Corp.

Warranty Service: Please return the product in the original packaging with proof of purchase to the below address. Clearly state in writing the performance problem and return any leads, connectors and accessories that you are using with the device.

Non-Warranty Service: Return the product in the original packaging to the below address. Clearly state in writing the performance problem and return any leads, connectors and accessories that you are using with the device. Customers not on open account must include payment in the form of a money order or credit card. For the most current repair charges contact the factory before shipping the product.

B&K Precision Corp.
1031 Segovia Circle
Placentia, CA 92870
Phone: 714-237-9220
Facsimile: 714-237-9214

Include with the instrument your complete return shipping address, contact name, phone number and description of problem.
Computer Monitor Tester Model 1275

FEATURES:

♦ Tests CGA, EGA, VGA, SVGA, & MAC Monitors
♦ Resolution 640X480, 800X600, 1064X768, & 1280X1024
♦ Interlaced & Progressive
♦ Provides Color bars, Cross-hatch, Dots, Color Raster.
♦ Connectors are 9pin D(CGA&EGA), 15pin D(MAC), 15minipin D (VGA, SVGA, and 8514A)
♦ Single push button selectable patterns
♦ Battery or adapter power source

OPERATION:

1. Place the monitor type switches to the proper position for the type of monitor to be tested.
2. Connect the monitor to the proper video output connector.
3. Turn on the power to both the monitor and the test unit.
4. Press the video pattern push-button to step to the desired pattern.

• By holding the video pattern switch, the output will scroll back to the previously displayed patterns.

APPLICATIONS

USE of PATTERNS

The primary use of this pattern generator is to provide a quick check of the operating condition of a monitor and to allow for the adjustment of the external controls for the best performance.

CROSSHATCH or DOT ---- These patterns are used to check static and dynamic convergence, linearity and pin cushion settings.

COLOR BARS ---- The color bars are used to test the monitors ability to produce proper colors.

RASTER ---- Typically used to check the purity of the primary colors. When these are properly adjusted the white raster should appear pure white.

### MISCELLANEOUS:

Power: One 9V Battery or an external AC Adapter **(NOT SUPPLIED)**

(9V DC 100MA 5.5mm x2.1mm)

Dimensions: 1.5" x 3.8" x 5.7"
Controls and Indicators

1. Power – Slide switch for power on or off.
2. Power Indicator – LED to show when power is on.
3. Column – Left or right column function select slide switch.
4. Monitor Type – Column 1
   CGA – Color Graphics Adapter
   EGA – Enhanced Graphics Adapter
   MAC – 640 x 480
   VGA – Video Graphics Adapter
       640 x 480
   Column 2
   SVGA – Super Video Graphics Adapter
       800 x 600
   8514A – Interlaced
   SVGA – Super Video Graphics Adapter
       1280 x 1024
5. Video Pattern – Step through Color bar, Crosshatch, Dot, and Raster Push button.
6. CGA or EGA Connector
   9 Pin Female, D type
7. MAC Connector
   15 pin Female, D type
8. VGA, SVGA, & 8514A Connector
   15 mini-pin Female, D type
9. 9 Volt Adapter Jack
   Power jack for 9v dc 100mA center pin positive Adapter.
Limited One-Year Warranty

B&K Precision Corp. warrants to the original purchaser that its product and the component parts thereof, will be free from defects in workmanship and materials for a period of one year from the date of purchase. B&K Precision Corp. will, without charge, repair or replace, at its option, defective product or component parts. Returned product must be accompanied by proof of the purchase date in the form of a sales receipt.

To obtain warranty coverage in the U.S.A., this product must be registered by completing and mailing the enclosed warranty card to B&K Precision Corp., 1031 Segovia Circle, Placentia, CA 92870 within fifteen (15) days from proof of purchase.

Exclusions: This warranty does not apply in the event of misuse or abuse of the product or as a result of unauthorized alterations or repairs. It is void if the serial number is alternated, defaced or removed.

B&K Precision Corp. shall not be liable for any consequential damages, including without limitation damages resulting from loss of use. Some states do not allow limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific rights and you may have other rights, which vary from state-to-state.

OTHER TEST & MEASUREMENT PRODUCTS AVAILABLE FROM B&K PRECISION

B & K Precision offer many different types of electronic test equipment to suit your needs. Below is a list of the different product categories of test equipment we offer.

High-Performance Oscilloscopes
Oscilloscope Accessories
High Performance Multimeters
Handheld Digital Multimeters
Bench Top Digital Multimeter
Digital Multimeter Accessories
Power Supplies
Function Generators
Frequency Counters
Spectrum Analyzers

SIMM Model Tester
Universal Device Programmers
Insulation Testers
Digital Thermometers
Capacitance & Semiconductor testers
Component Testers
LCR Meters
Telephone Product Testers
Video Testers
CRT Tester/Restorer & analyzers
